

INSTRUCTIONS

Choose between following options:

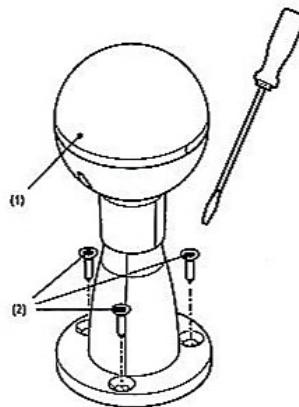

Mounting by glue

1. Apply the glue (SIKAFLEX 252® or similar sealant) on the bottom of the antenna mount (1) and place it on the clean surface where it must be mounted.

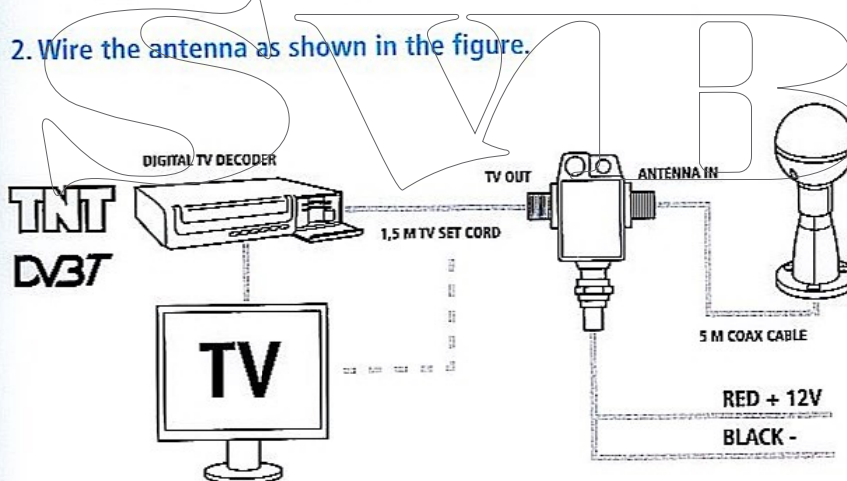

Mounting by screws

1. Secure the antenna (1) on the surface where it must be mounted by 4.8x19 supplied countersunk head self threading screws (2).

2. Wire the antenna as shown in the figure.
